

Month 1	Month 2	Month 3	Month 4
Sep/Jan/May	Oct/Feb/June	Nov/Mar/July	Dec/Apr/Aug
Work capacity	Strength	Strength/Power	Race Prep
Increased time under tension & higher reps to increase work capacity for the athlete	Decrease in overall volume	Decrease in resistance used. High intent with power exercises remains	Higher percentage of jumps, plyometrics & MB Throws
Higher volume, incorporating tempos & exercises for time	Increase in intensity through tempos & resistance	Incorporating more swim-specific movements	Mirroring swim specific movements
Lower level plyometrics, building base to build from throughout the season	Plyometrics are progressed through resistance & complexity of movement	More bodyweight jumps & medball throws, preparing body to race & compete	Peak performance
All months incorporate full body mobility, balance & coordination, & shoulder resiliency movements. Exact schedules will vary team to team.
